

# Mobile competition system for DIVING

The competition system for "Diving" is an example, how electronic- and software developments of Sportlicht paired with experience for many years in diving data service, merges to a modern, high-quality overall system.

- mobile terminals "wireless JURY 2.4"
- Data service software "SL WinDiving"
- LED Video Display "SL Indoor P10"

## Judges terminals "wireless JURY 2.4"

This input device for judges scores is durably, simple in operation, light and without annoying cables. Troublefree operation during the competition and very fast changes of juries setup between the competitions are possible now. A new, innovative product in the hands of the international judges.

- fast data transmission by radio in the 2,4 GHz range
- in this frequency range world-wide useable
- extremely low power consumption - 50 hours of actual working time
- displays the dive number, input of scores, acknowledgment of receipt

## Data handling and competition control by "SL WinDiving"

The software for data service and competition control, based on almost 20-years experience in services for national and international diving championships, offers all-highest working reliability and functionality.

- conformal to all FINA competition rules
- Extensions for special rules of national federations are also possible
- InterNet binding for entry lists, dive lists and results
- print out of different lists and official protocol
- controlling of extensive periphery and information systems
- simple, safe and fast operation during the competition

## LED display system "Sportlicht INDOOR P10 SMD"

A modern, full coloured LED video display provides information service at highest level. The splended text presentation and ideal colour blending, which is necessary for result service, is based upon:

- 10mm real (not virtual) pixel distance,
- SMD light-emitting diodes with red, green and blue LED's,
- ideal colour blending already at small viewing distance.

Normal use for result service as well as high quality colour graphics and advertising- or live video, all in outstanding quality with up to 50 Mio colours.

	1,3 m <sup>2</sup> - mobile	4,9 m <sup>2</sup>	7,4 m <sup>2</sup>
Dimension:	1,3m x 1m	2,56m x 1,92m	3,84m x 1,92m
Power consumption:	max. 0,5 kW	max. 2 kW	max. 2,8 kW
Weight:	ca. 47 kg	ca. 150 kg	ca. 240 kg
Resolution:	128 x 96	256 x 192	384 x 192
